

## Innovate! Celebrate!! Educate!!!

...Ingenuity Knows No Limit ...

Canada's Manning Innovation Awards will, through the support of the Alberta Ingenuity Fund, celebrate 25 years of recognizing Canadian innovation by bringing world-renowned Canadian innovators to Calgary September 28-29 to share their inspirations with Calgary area students with an interest in science, technology and innovation.

The *Innovate! Celebrate!! Educate!!!* forum will also be of interest to the general public. The Forum will be hosted at the SAIT Orpheus Theatre, 1301 - 16 Avenue NW, which is readily accessible by LRT. The forum will be presented at three times:

Thursday, September 28 from 9:30 a.m. to 12:00 noon

Thursday, September 28 from 1:30 p.m. to 4:00 p.m.

Friday, September 29 from 9:30 a.m. to 12:00 noon.

Forum attendees will hear from Manning Award Laureates. The Manning Innovation Awards recognize such Canadian innovators annually with awards and cash prizes.

Attendees will also interact with Manning Young Canadian Innovation Award winners recognized at the 2006 Canada Wide Science Fair for their leading-edge investigative work.

**Dr. Tom Keenan** of the University of Calgary is the moderator.

**Dr. Nancy Mathis**, of Fredericton, New Brunswick, will profile her revolutionary sensor used for many applications including product quality control to ensure important medications perform accurately. [www.mathisinstruments.com](http://www.mathisinstruments.com)

**Chris Griffiths**, of St. John's, Newfoundland, will talk about the evolution of his glass fiber guitar frame – renowned as the most affordable, high-quality, solid wood acoustic guitar in the world and used by bands like The Tragically Hip.
